'GIRL FROM DIXIE'' ON THE ACADEMY BOARDS

Popular Musical Comedy Presented Twice To-day-Special Bijou Matinee.

cial Bijou Matinee.

Sam S. Shubert's production of "A Girl from Dixie," which will be presented at the Academy this aftergoon and to-night, will no doubt be welcomed as a most refreshing novelty in the line of musical comedy entertainment. Although it presents in most happy propurtions the combination of light, catchy and popular music, as well as genuine comedy of an entirely refined nature, the construction of the plece is radically different from the modernity accepted type of musical comedy. In some of the chief comedy roles are such node comedians as D. L. Don, Charles K. French, Clifford Leigh, Thos. J. Keogh, Charles H. Sheffer, Arthur T. Earnest, Julia Brink, Olga May, Helen French and the clever prima donna soprano, Miss Gertrade Millington. Among the many song hits which will no doubt become popular here are "The Alphabet of Love," "Mary from Maryland," "Bubbles," "When the Sunfower turns to the Sun," and "American Heiresses."

To Accommodate Overflow.

To Accommodate Overflow. The "overflow" audiences which have failed to get seats at the Bijou this week to see "The Beauty Doctor" will have just once chance—the special matinee which is to be given this afternoon. Every night during the week the house has been filled, and the matinees have proven the magnet for women and children. The gowns worn by Miss Lee are "dreams," according to the lades. Miss Lee is one of the best dressers on the stage. "The Beauty Doctor" is a clever satire on the complexion artists and hair producers, giving a splendid libitstation of the system of separating people from their colu.

The Minstres.

Billy Clark, comedian, has been engaged for the Al G. Field minstrels. He is one of the best negro comedians who has ever been connected with a minstrel organization. Clark has the bapty faculty of writing all his own gags, monologues and songs, and wherever he has been heard he has made a most palpable hit. He is a young man, but his experience has been heard and statematic. This year Clark will do the monologue in the show. The minstrels will be shown to-morrow after noon and night.

Effusions of Otis.

Otis West was charged with striking and abusing Mrs. Farmer. The effusions of Otis make Lord Byron's sonnets seem like aursery rhymes, and the poems of Ella Wheeler Willeex like the babblings of an infant. Mrs. Farmer was no slouch at the game but the red hot periods of Otls knocked her out.

Alas for courtly constancy! A female fortune teller came on the seens, and Mrs. Farmer was "in also ran."

"This is too warm for me," remarked His Honor, perspiring coplously, "Out of the presence!" and they outed.

CONFEDERATE MAKES FORTUNE

Breaks on 'Change Here Yesterday Have Gold Lining for Some.

AN ANXIOUS DAY FOR ALL

While Most Stocks Finally Recovered, Uneasiness Was Felt All Day.

Stocks fell yesterday morning with a "dull and sickening thud," and there was every indication that a panic had again visited the market.

During the first fifty minutes of stock transaction, Amalgameted Copper fell from 68 to 60, carrying the rest of the market with it. Every stock on the board fell from 2 to 8 points and it was not un-

fell from 2 to 8 points and it was not unusual to see a change of 2 to 3 points in a single fluctuation. Richmond trades have suffered very slightly. In fact, the people of this city bought largely on the break at the very bottom of the market, and have already large profits on their purchases.

In the midst of the stremuous opening hour, a well known gentleman remarked that he would like to be on the New York Stock Exchange to see the excitement there. "Richmond is bad chough for me," replied a ban operator, "it's h-il here."

An Anxious Morning.

An Anxious Morning.

Panle was averted, but it was too close to cause anything but a most anxious morning around the brokers' offlees.

If any of the great houses had gone to the wall, no amount of support could have averted a panle, and three o'clock brought a feeling of relief.

A well known Richmond booker, in talking over the situation, after the close of the market, said that he thought stocks would be unsettled for several days, and that the professional traders would find them an easy mark until the market had an opportunity to settle.

A high financial authority in New York had 'phoned him that the situation had no alarming features and that the prosperity of the country was such that he looked for higher prices than those that prevailed before the recent break.

Money went no higher than 41-2 per cent, and there was no difficulty in Richmond in borrowing at the usual rate on approved securities.

All the Gould stock held firmly, nota-

mond in borrowling at the usual rate on approved securities, all the Gould stock held firmly, notably Missouri Paulin that opened at 107 32, dropped to 103 and closed at 107 1-2. Eric Common opened at 37 3-4, fell to 34 1-8, and closed at the opening. Chemical common stood the strain, closing at 40—three-quarters higher than the opening. The Steel stock recovered practically all their loss, as indeed did practically every stock on the list.

Even Amaigamated Copper, the cause of all the trouble, closed up 8 points, from the lowest.

Chesapeake and Ohio was one of the few rainroad stocks that did not fully recover, although Norfolk and Western closed higher than the opening.

WONDERFUL CURE OF SORF HANDS

By Cuticura After the Most Awful Suffering Ever Experienced.

EIGHT DOCTORS

And Many Remedies Failed to do a Cent's Worth of Good.

"About five years ago I was troubled with sore hands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the fiesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get, no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first bugan. I also tried many remedies, but none of them ever did me one cents worth of good. I was discouraged and heart-sore. I would feel so bad mornings when I got up, to think I liad to go to work and stand the pain for ten hours, and I often felt like giving up my position. Before I started to work mornings I would have to wrap every linger up separately, so as to try and keep them soft and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. But thanks to Cuticura, the greatest of all great skin cures. After doctoring for three years, and spending much money, a 50c. box of Cuticura Ointment ended all my sufferings. It's been two years since I used me any good, as my hands were as bad ings. It's been two years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Olntment." THOMAS A. CLANCY, 310 N. Montgomery St., Treuton, N. J.

nopolies Are Not in League.

Mr. Ciliff Well, member of the Cily Council, and a number of New York capitalists will incorporate within the next thirty days The Cilif Well Cigar Company, with headquarters at No. 1318 East Main Street, in this cily.

It is the san of the company to install a humidor with a capacity of half a million cigars and to engage in the wholesale cigar business.

Mr. Well denies emphatically that his company will have any connection with the American Cigar Company, which operates retail stores throughout New York. The American Cigar Company, under the name of the United Cigar Stores, has practically secured a monopoly of the retuil trade in New York. Washington has just been invaded by this retail trust, and the cry now is "On to Richmond!" It is supposed that it is the purpose of Mr. Weil's company to hold in check this Southern invasion.
